AADHAN S

B.Sc Computer Science | Aspiring Full Stack Developer

Thanjavur, Tamil Nadu | 9500506364 | aadhansiva5@gmail.com | LinkedIn

CAREER OBJECTIVE

Fresher with a strong foundation in Python, JavaScript/TypeScript, React, and Flask, and hands-on experience building and deploying a real-world client application end-to-end. Combines backend logic and data analytics skills with practical front-end development to build clean, scalable, and user-focused web applications. Seeking a full-time opportunity as a Full Stack Developer to contribute effectively while continuing to grow.

EDUCATION

SRM Arts and Science College, Trichy
Bachelor of Science in Computer Science (B.Sc Computer Science) | 2024 – 2027 | CGPA: 7.3

INTERNSHIP

Web Development Intern — IAFC, Trichy
25th May 2026 – 4th June 2026

- Completed a hands-on internship in Web Development, building practical skills in front-end and back-end web technologies.
- Worked on real-world web development tasks under guidance, strengthening core concepts of HTML, CSS, and JavaScript.
- Received positive performance feedback for consistency and technical understanding throughout the internship.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, TypeScript
- Backend Development: Python, Flask, REST APIs
- Frontend Development: React, TypeScript, HTML, CSS, Tailwind CSS
- Data & Analytics: MS Office (Excel), MySQL
- Tools: Git/GitHub, Vite, Problem Solving

CERTIFICATIONS

- Design Thinking for Beginners — Simplilearn SkillUP (17th June 2026) | Certificate Code: 10359800
- Python Essentials 1 — Cisco Networking Academy / Python Institute (2nd August 2026)
- Python Essentials 2 — Cisco Networking Academy / Python Institute (30th August 2026)
- 30 Days Power BI Micro Course — SkillCourse (6th August 2026)

PROJECTS

GoWithEasy Service Hub
Freelance Project | Full Stack Developer | Tech Stack: React, TypeScript, Vite, Tailwind CSS, Flask (Python), Leaflet, TanStack Query

- Developed a full-stack vehicle service platform for a startup client, from concept to deployment.
- Built the frontend using React and TypeScript, and the backend using Flask (Python).
- Implemented secure user authentication using Google OAuth (Authlib) and Werkzeug password hashing.
- Integrated interactive maps (Leaflet) and data visualizations (Recharts) for garage and service tracking.

LANGUAGES KNOWN

- Tamil: Native
